

I believe that the FCC should not allow increases in ownership allowances in a single market. To do so would significantly degrade the quality of information available to the public. Our communities require diverse sources of information and media in order to thrive. Already, community radio stations and public radio stations are being squeezed out and corporate radio has too much domination. To enact rules which ease restrictions on ownership requirements would be doing a great disservice to the American people. I trust that you will listen to voice of the people of the United States, who do own the airwaves, and respect their wishes. Thanks.
